Phyto-Skin Complex

1. Oral preparations

Enzym-Wied® N

Vegetable enzymes and extracts plus zinc

Packs of 60, 120, 500 and 1000 coated tablets

Enhances the body's own healing processes

Enzymes promote wound healing. It therefore makes sense to use enzymes for all diseases that involve inflammation, for all types of injury, for contusions, bruises, swellings, following operations, etc.

Enzyme treatment has also proved effective in rheumatic diseases and in strengthening the immune system.

Composition

1 tablet of Enzym-Wied® N contains:

Natural enzymes such as bromelain, papain, lipase, amylase, extract of figs plus grape seeds and tamarillo.

Indications: see Enzym-Wied®

Enzym-Wied®

Natural enzymes plus rutin for specific enzyme replacement

Packs of 120 coated tablets

Composition

1 enteric-coated tablet contains:

Bromelain	45 mg	Amylase	10 mg
Pancreatin	100 mg	Trypsin	24 mg
Papain	60 mg	Chymotrypsin	1 mg
Lipase	10 mg	Rutin	50 mg

Indications: Arteriosclerosis, phlebitis, varicose vein symptoms, aftercare following angina pectoris and myocardial infarction, bronchitis, contused injuries and haematomas as well as swellings and inflammation. For supportive treatment of discomfort associated with the intervertebral disks, obesity and cellulitis. For complex treatment of ailments of old age and degenerative symptoms.

Proteozym® N

Purely herbal single enzyme preparation (bromelain) plus zinc to suppress inflammation and reduce swelling

Packs of 20, 50, 100 and 200 (hospital pack) coated tablets

The active ingredient of Proteozym® N, bromelain, is a genuine mixture of proteolytic enzymes from stems, stalks and unripe fruits of the pineapple plant.

Bromelain exerts a fibrinolytic action by inhibiting the formation of fibrin and plasmin and a thrombolytic action by inhibiting platelet aggregation. Bromelain exerts anti-oedematous and anti-inflammatory effects by lowering the plasma kinin level and intervening in prostaglandin synthesis. As a result, fast pain relief and rapid healing are achieved.

Composition

1 enteric-coated tablet contains:

Bromelain 45 mg (equiv. 225 F.I.P. units) and zinc 1.125 mg

Indications: Inflammatory processes with oedema, acute swellings caused by operations or contused injuries, e.g. accidents, sports (postoperative and post-traumatic swollen states). Non-bacterial mucosal inflammation. To support fibrinolytic treatment.

Revicain® N 20

Essential nutrients and vitamins in capsules

The energy activator

Packs of 60 capsules

Composition

Nutritional supplement contains 20 vitamins, minerals and trace elements for a comprehensive daily supply of vital substances

The modern dietary supplement to keep young and old healthy and to increase vitality: new energy, day in and day out.

Neuro-Wied® N

Essential B group vitamins, folic acid and zinc

Packs of 60 capsules

Vitamin deficiency, especially of B group vitamins, often leads to disturbances in the autonomic nervous system. The combination of active substances contained in Neuro-Wied® N has therefore been specially chosen for prevention and treatment of psychosomatic complaints.

Composition

1 capsule contains:		Folic acid	400 µg
Niacin (Vitamin B ₃)	60 mg	Biotin	450 µg
Vitamin B ₁	5,4 mg	Calcium pantothenat	18 mg
Vitamin B ₂	5,2 mg	Lecithin	50 mg
Vitamin B ₆	6,3 mg	Magnesium	60,3 mg
Vitamin B ₁₂	9 µg	Zinc	5 mg

Indications: Treatment of vitamin B and folic acid deficiency.

Vitamin E preparations

An increased amount of free radicals (aggressive oxygen compounds that damage the cells) are formed in the body, particularly in rheumatic diseases. They lead to inflammation and pain. Vitamin E combats these free radicals and inhibits the formation of new ones, resulting in pain relief and an improvement in symptoms.

The active substances of both preparations are of natural origin and obtained from plant oils. Natural vitamin E is extremely bioactive.

1. **Uno-Vit®** high-dose containing 600 I.U. per capsule
Packs of 100 soft capsules

Composition

1 capsule contains:
600 mg plant oil distillate, equiv. 402.6 mg RRR- α -tocopherol (vitamin E 600 I.U.)

Indications: Treatment of vitamin E deficiency.

2. **Vitamin E** coated tablets containing 150 I.U. per tablet
Packs of 50, 100 and 200 coated tablets

Composition

Vitamin E 150 I.U., equiv. 123.8 mg d- α -tocopherolsuccinat

Indications: Treatment of vitamin E deficiency. Rheumatism in children.

Chondro-Wied®

The joint capsule with natural regenerative nutrients: sternum type II collagen, vitamin C and zinc

Packs of 20 and 120 tablets

Chondro-Wied® protects and stimulates the production and regeneration of the cartilage matrix, promotes joint mobility, relieves joint pain and reduces swelling. Chondro-Wied® contains constituents of the natural total cartilage matrix for daily supplementation of joints and cartilage.

Composition

Powdered hydrolysed chicken sternum (86%), vitamin C, gelatine, zinc sulphate, releasing agent: magnesium salts of fatty acids.

Thymowied® N

Thymus gland tablets
An immunostimulator for stimulating the body's own defence mechanisms

Packs of 100 and 300 coated tablets.

Composition

1 coated tablet contains:
Thymus gland powder 200 mg, Vitamin C, B6, selenium and zinc

Indications:

Generally lowered resistance, virus infections, recurrent bacterial infections. As supplementary therapy in rheumatic disease. For overall revitalization and for prevention of typical geriatric and degenerative symptoms.

As supporting therapy in cancer and leukemia, as preliminary and follow-up treatment for operations, radiotherapy and chemotherapy.

2. Parental Applications (Injections)

Revicain®

Procaine preparation with B group vitamins for regeneration

Packs of 10 ampoules

Revicain® is a combination of procaine and a specific high dose of vitamins. These two groups of substances, a well-matched composition, supplement each other.

Procaine improves the blood flow in sclerotic vessels and lowers the danger of development of oedema.

The B group vitamins, prevent and improve vitamin deficiency, they improve food utilisation and compensate one-sided nutrition. The lipotropic property of the product activates the liver activity, especially when semi-luxury items have been consumed.

Composition

One 2.0-mL ampoule contains:

procaine hydrochloride	50 mg
vitamin B1	10 mg
vitamin B2	3 mg
vitamin B6	5 mg

sodium chloride and aqua ad 2 mL.

Indications: Ailments of old age, reduced life activity and energy, cerebral and peripheral circulatory disorder, arteriosclerosis, protective therapy of the liver.

Ribo-Wied®

Biological therapeutic agent for regeneration

Packs of 10 ampoules

Ribo-Wied® contains a number of biological active oligonucleotides and -peptides (from calf-organs). These substances are important in protein-metabolism as well as regeneration and self-repairing mechanism.

Ribo-Wied® stimulates the cellular and humoral immune system. It has a beneficial effect on geriatric and hormonal disorders, and it can be used after operation and for accelerating convalescence.

Composition

One 4.0 mL ampoule contains:

Bovine organ hydrolysate with oligonucleotides and -peptides from:

spleen	3 mg
liver	12 mg
heartmuscle	4 mg
placenta	20 mg

Indications: Geriatric diseases or degeneration, climacteric and endocrinological disorders, sclerosis, loss of vitality.

Lachemistol®

Liquid dilution for injection

Packs of 10 ampoules

Lachemistol® is a homeopathic preparation. The two ingredients, Lachesis mutus, a South American snake, and Viscum album, the so called mistletoe, are well known in homeopathic therapy. Their supplementary effect helps against all kinds of spasm (muscle and vascular contraction).

Composition

One 2.0 ml ampoule contains:

Lachesis mutus D8 dil.	1.0 ml
Viscum album D4 dil.	1.0 ml

Indications: The indications are derived from the homeopathic remedy pictures, including arthrosis and anginose complaints.

3. Homeopathic Injections

Wiedemann-Homeocomplex® Therapy

A gentle treatment for chronic illnesses, decreased vitality and ailments of old age

Uses: Allergies, asthma, acute and chronic airways diseases, bronchitis

Wiedemann-Homöokomplex® BH

Liquid dilution for injection

Composition: Acidum hydrofluoricum D8 dil. 0,5 ml, Hamamelis virginiana D4 dil. 0,5 ml, Graphites D12 dil. 0,5 ml, Kreosotum D10 dil. 0,5 ml. **Other ingredients:** sodium chloride, water for injections.

Uses: Weakness of connective tissue, impaired wound healing, inflammation of skin and mucous membrane

Wiedemann-Homöokomplex® C

Liquid dilution for injection

Composition: Ambra grisea D12 dil. 0,5 ml, Anamirta cocculus D6 dil. 0,5 ml, Conium maculatum D6 dil. 0,5 ml, Hypericum perforatum D4 dil. 0,5 ml.

Uses: Cerebral sclerosis, memory disturbances and lack of concentration, depression, migraine, headaches

Wiedemann-Homöokomplex® G

Liquid dilution for injection

Composition: Solanum dulcamara D3 dil. 0,5 ml, Cholchicum autumnale D4 dil. 0,5 ml, Causticum Hahnemanni D6 dil. 0,5 ml, Rhododendron D6 dil. 0,5 ml.

Uses: Joint and spinal diseases, rheumatism, gout, osteoarthritis

Wiedemann-Homöokomplex® H

Liquid dilution for injection

Composition: Crateagus D3 dil. 0,4 ml, Strophanthus gratus D5 dil. 0,4 ml, Iberis amara D4 dil. 0,4 ml, Selenicereus grandiflorus D4 dil. 0,4 ml, Naja naja D12 dil. 0,4 ml.

Uses: Cardiovascular diseases, coronary insufficiency, hypertension

Wiedemann-Homöokomplex® I

Liquid dilution for injection

Composition: Eupatorium perfoliatum D4 dil. 0,5 ml, Pulsatilla pratensis D6 dil. 0,5 ml, Phosphorus D8 dil. 0,5 ml, Gelsemium sempervirens D3 dil. 0,5 ml.

Uses: Weakness of immune system, susceptibility to infection, chronic infection

Wiedemann-Homöokomplex® L

Liquid dilution for injection

Composition: Berberis vulgaris D4 dil. 0,5 ml, Chelidonium majus D3 dil. 0,5 ml, Silybum marianum D3 dil. 0,5 ml, Veronica virginica D4 dil. 0,5 ml.

Uses: Liver/gallbladder disorders and discomfort, hepatopathies, hyperlipidaemia

Wiedemann-Homöokomplex® NP

Liquid dilution for injection

Composition: Berberis vulgaris D3 dil. 0,4 ml, Clematis recta D4 dil. 0,4 ml, Lytta vesicatoria D6 dil. 0,4 ml, Pulsatilla pratensis D4 dil. 0,4 ml, Serenoa repens D3 dil. 0,4 ml.

Uses: Acute and chronic kidney diseases, inflammation of the urinary tract, micturition problems, prostatic hyperplasia

Wiedemann-Homöokomplex® O

Liquid dilution for injection

Composition: Cimicifuga racemosa D3 dil. 0,5 ml, Lachesis mutus D8 dil. 0,5 ml, Pulsatilla pratensis D4 dil. 0,5 ml, Sepia officinalis D8 dil. 0,5 ml.

Uses: Menopausal problems, hormonal disturbances, menstrual problems, osteoporosis

Wiedemann-Homöokomplex® R

Liquid dilution for injection

Composition: Kalium phosphoricum D6 dil. 0,4 ml, Acidum phosphoricum D10 dil. 0,4 ml, Semecarpus anacardium D6 dil. 0,4 ml, Anamirta cocculus D4 dil. 0,4 ml, Ambra grisea D8 dil. 0,4 ml.

Uses: General regeneration, arteriosclerosis, geriatric syndrome, stress syndrome

Wiedemann-Homöokomplex® RS

Liquid dilution for injection

Composition: Bryonia cretica D3 dil. 0,1 mg, Guaiacum 0,2 mg, Ruta graveolens 0,1 mg, Toxicodendron quercifolium 0,1 mg.

Uses: Rheumatic diseases, pains, polyarthritis, neuralgia.

Wiedemann-Homöokomplex® T

Liquid dilution for injection

Composition: Phosphorus D8 dil. 0,5 ml, Vitex agnuscastus D4 dil. 0,5 ml, Cinchona pubescens D12 dil. 0,5 ml, Turnera diffusa D6 dil. 0,5 ml.

Uses: Male sexual disorders, oligospermia, exhaustion

4. Cosmetics
